

**ENCLOSURE 1**  
**CAA INFORMATION REQUEST**

**Hydro Extrusion Portland, Inc. dba Hydro Extrusions**

**A. INSTRUCTIONS**

1. Provide a separate narrative response to each question and subpart of a question in this Information Request. Mark each answer with the number of the question (and subpart, if applicable) to which it corresponds.
2. For each question, provide a copy of each document relied on or referred to in the preparation of the response or that contains information responsive to the question.
3. Indicate on each document produced in response to this Information Request, or in another reasonable manner, the number of the question to which it corresponds.
4. If requested information or documents are not known or are not available to you at the time of your response to this Information Request, but later become known or available to you, you must supplement your response to EPA. Moreover, if you find at any time after submission of your response that any portion is or becomes false, incomplete, or misrepresents the facts, you must provide EPA with a corrected response as soon as possible.
5. Provide the name, title, and business contact information for each person who prepared or was consulted in the preparation of your response. If you have reason to believe that there may be persons able to provide a more detailed or complete response to any question contained in this Information Request, or who may be able to provide additional responsive documents, provide the name, title, and business contact information for each such person and the additional information or documents that they may have.
6. If you believe a question is not applicable to the Facility, explain the reason for that belief.
7. The information requested must be provided whether or not you regard part or all of it as a trade secret or confidential business information. You may assert a confidentiality claim covering part or all of the information submitted, pursuant to Section 114 of the Clean Air Act (CAA), 42 U.S.C. § 7414 and 40 C.F.R. Part 2, by placing on (or attaching to) the information, at the time it is submitted to EPA, a cover sheet, stamped or typed legend, or other suitable form of notice employing language such as “trade secret,” “proprietary,” “company confidential.” Allegedly confidential portions of otherwise non-confidential documents should be clearly identified and may be submitted separately to facilitate identification and handling by EPA.
8. If you claim all or part of your response as a trade secret, proprietary, or company confidential, please also return with your response a complete substantiation of your claim. Enclosure 3 contains the information you must provide in order to substantiate your claim. If you require additional time to substantiate your confidentiality claim, contact the individuals listed in the cover letter.

Information covered by such a claim will be disclosed by EPA only to the extent and by the procedures set forth in statutes and 40 C.F.R. Part 2, Subpart B. See 40 C.F.R. § 2.301 for additional rules governing certain information obtained under the CAA. Note that certain categories of information, including “emission data,” are not entitled to confidential treatment. Unless you make a claim at the time you submit the information in the manner described in 40 C.F.R. § 2.203(b), it may be made available to the public by EPA without further notice to you. See also 41 Fed. Reg. 36902 (Sept. 1, 1976).

## **B. DEFINITIONS**

All terms used in this Information Request have their ordinary meaning unless such terms are defined in this Information Request; the Clean Air Act, 42 U.S.C. A. §§ 7401 to 7671(q) including, but not limited to Sections 302, 502 of the CAA, 42 U.S.C. §§ 7602 and 7661a; and the regulations at 40 C.F.R. Part 63 subpart WWWWW. For purposes of this Information Request:

1. The terms “you” or “Respondent” mean Hydro Extrusion Portland, Inc., and its subsidiaries, officers, directors, managers, partners, employees, contractors, and agents, as applicable.
2. “Facility” means the facility owned or operated by Respondent located at 7933 NE 21<sup>st</sup> Avenue in Portland, Oregon.
3. “Document” means any object that records, stores, or presents information, and includes, without limitation, email, writings, memoranda, contracts, agreements, records, or information of any kind, formal or informal, whether wholly or partially handwritten or typed, whether in computer format, memory, or storage device, or in hardcopy, including any form or format of these. If in computer format or memory, each such document shall be provided in translation to a form useable and readable by EPA, with all necessary documentation and support. Include all attachments to or enclosures with any responsive document.

## **C. INFORMATION REQUEST**

Provide the following information for the Facility. Unless otherwise specified, provide all responsive information for the time period between January 1, 2021 and the date of this Information Request.

1. Provide copies of manufacturers’ documentation or invoices for the two nickel seal tanks (tanks #18 and #19) located in the Anodizing Line. Please ensure that the submitted documentation states the size (in gallons) of each tank.
2. Provide the portion of each nickel seal tank (tanks #18 and #19) that is not used for holding a liquid (i.e., the tank’s freeboard). Include a written description of how each tank’s freeboard was measured and/or calculated.
3. Provide records of all chemical additions to each nickel seal tank (tanks #18 and #19). The records must include all chemicals included in the final bath contents, in addition to the nickel acetate seal solution, as well as the amounts (in gallons) and timestamps of each chemical addition. Please provide the requested data in an excel spreadsheet if possible.
4. Provide Safety Data Sheets of all chemical components of the final bath contents of each nickel seal tank (tanks #18 and #19). Organize the requested Safety Data Sheets by tank number in your submittal.
5. Provide any analytical data available of the nickel concentration in each seal tank (tanks #18 and #19). Include a written description of how the nickel concentration was measured in each seal tank.
